

SCHOOL DESCRIPTION

The main school campus (Prep - 6) consists of 4 main blocks of classrooms, offices, a library and a General Purpose Hall. The school's main kindergarten facility is off site at Blair Street. A kindergarten group, a Pre Kinder programme (Launching into Learning) and a Playgroup are conducted on that campus. All administration is undertaken at the main campus office.

The administration area, music room, staffroom, Information Literacy Centre (library), canteen and General-Purpose (GP) Hall will be accommodated in the older block on the corner of Pioneer Avenue and Hillside Crescent. The main building consists of classrooms. The refurbishment has added a block of three classrooms to the main block in an additional wing.

Most classes at the school are composite classes, that is, mixed year groupings e.g. 5/6. Teachers endeavour to meet the wide range of abilities within the school by dividing children into groups that work at various stages in the basic learning areas, or by providing individual programs.

Our learning support program involves reading tutors, teacher aides and support teachers working with individuals or small groups of students. We provide opportunities for talented students recognising the need to support students at all points on the learning spectrum to achieve their full potential. We participate in the Primary School Combined Band Program, providing tutoring in flute and clarinet for interested students selected through audition. Specialist teachers provide Physical Education, Information Literacy (library and information technology) and Music.

The General Purpose Hall is used for assemblies, music, indoor games/physical education, drama, performances etc.
